A thousand feet of ditch has been mont Milk Chocolate company plant 25c with the water system.

Following the call for nut shells, with which to make the gas for gas masks, over a ton accumulated at the federal building in Rutland, which had not been shipped at the time the armistice was signed. It is not expected the government will want them now and the caretaker of the building will probably use them for fires until they are gone.

A Ford car on the wrong side of the road in the darkness and a team ahead without lights were the principals in an accident at Essex Junction recently. In the carriage were Mr. and Mrs. Charles Rev. Dr. John Stanley Lyon of Holyoke Caswell and infant daughter of Essex and in the auto Mr. and Mrs. Weston and three others of Milton. When the auto struck the team the latter was overturned, throwing out Mr. and Mrs. Caswell and child and the car went over a seven-foot embankment, breaking off electric pole in its descent. Mrs. Caswell was thrown on top of her child and it was thought at first the child was killed. It seemed, however, to be unharmed. All the occupants of the car remained in their seats and no one was injured except Mrs. Weston, who was cut above the eyes.
